DOES OXFORD WANT POOR MEN!

Does the University of Oxford wants poor men within its walls? If so, is it propared to downat is necessary to make it possible for such men to make both ouls most at the University?

A book just issued by the Clarendon Press drti-led " Principles and Meth de of Universi y Reform " deals with this question. The Times thinks that it shows that Oxford " is in carnest about the task of sotting its house in order."

"Oxford ought to be above all suspicion of snobbery," says the Daily Mail, " Her doors should be open to all men of tilent and devotion to learning; and once within the perials, the alumnus should suffer no disqualification from the accident of paverty. THE BRITISH MUSEUM.

PROGRESS OF EXTENSION WORE.

Three menths beace the masoary work of the British Museum Extension building in Montague pl ce will have been practically completed. The project is one of the most m.portant which the Office of Works has been mide re por sible for in recent years, involving, as it does, an expenditure of £150,000, sanctioned by Parliament four or five years

The architectural features of the new build. ing are already well outlined. A model on the scale of a quarter of an inch to the foot has also been prepared by the architect, Mr. J. J. Burnet, showing-the-building-at-a-distance of forty feet from the south building line. If represents a single "Order" of twenty engaged/lonic columns similar to those of the main front of the Museum in Great Russell. street; but raised fourteen feet above the level of the street on a simple base which extends John's Cathedral, or at the Peak Hotel. the length of the building. This "Order" is crowned by a recessed attic fourteen feet high, the coroles of which bears a massive lead crestlng, the whole facide being flanked by two towers about placty feet high.

The feetde is of Portland stone, the outer walls and pelestals of the f-recourt being of Scotch granite, which is carried round the cartway entrances. The main entrance is surmounted by a balcony, the parapet of which is formed by the stone Isid in June, 1507, by his late Majerty, the doorway itself being formed of marble, surrounded with granite and closed by a brosz; door, the upper

panels of whick are sculptured in relief. The architectural composition is severely simple, and inteinally, as externally, is in complete harmony with the style of the existing.

The increased accommodation which the new building will afford is not likely to be u'i'ited for at least twelve' months. All the interior work remains to be done, and will 130 occupy the contractors until well into 1919.

THE MOTOR CAR IN WAR.

Captain Battine, addressing the member of the Ladies' Automobile Club in London of Nov. 4, said it was hardly possible to exeggerate the importance of the motor car in wat With motor cars it was possible to feed a mi lion men in the field, whereas in 1870 three or four hundred thousand men was the limit. The motor car could move troops rapidly about for seizing strategical points and destroying bridge and railways, could carry stores and ammuni

tion, and move artillery. Mr. E. Shrapne I Smith, hon, treasurer of the Commercial Motor Users' Union, said that the War Office was extremely dilutory in the matter of motor cars. Some of the cars used the recent mar ouvres would have disgraced a third class or gineering stop. -

be deceived. That their are cheats and fraudin plenty overybody knows; but it is seldom or never that any large business house is guilty of them no matter what line of trade it follows-There can be no permanent success of any kind based on dishonesty or deception. There nover was, and nover will be. The men who try that are simply fools and soon come to grief-as they deserve. Now many persons are, nevertheless, afraid to buy certain ndvertised articles lest they be humbugged and deluded; especially are they slow to place confidence in published statements of the merits of medicines. The remedy known as WAMPOLE'S PREPARATION

is as safe and genuine an article to purchase as flour, silk or cotton goods from the mills of manufacturers with a world-wide reputation. We could not afford to exaggerate its qualities or misrepresent it in the least and it is not necessary. It is palatable as honey and contains the nutricive and curative properties of Pure Cod Liver Oil, extracted by us from frosh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry; and how valuable such a blending of these important medicinal agents must be is plain to everybody. It is beyond price in Anemia, Insomnia, Weakness and lack of Nervous Tone, Poor Digestion, Wasting Impurities. Science can furnish nothing better -perhaps nothing so good. Dr. W. H. Dalfe of Canada, says: "I have used it in my practice and take pleasure in recommending it as valuable tonic and reconstructive." It is remedy that can afford to appeal to its record bright and aggressive medical investigation. Effective from the first dose. "You cannot be disappointed in it." Like all good things it is imitated. Sold by chemists throughout the

CRINESE EMIGRANTS.

It was only to be expected that the great Rubber Boom should have had a marked effect upon the emigration of labourers from China, whence the vast industries of the Federated Malay States, the Dutch Posses. That the destitute, ignorant coolie from sions and Borneo recruit by far the larges; proportion of their coolle workers. In common with other places on the coast, Hongkong has reaped great benefit financially from the increased activity pervading this branch of the passenger traffic, which in the computation of some of our leading shipping men in the Colony has shown an increase of something like thirty-five per cent. during the current year as compared with 1909. In f ct, to class these people in the "assisted printer's error. months of 1910 exceed those for the whole of the previous year. This abnormal development of the coolie traffic may be written down as largely due to the boom in the Colony's finances, unless indeed some Malay industries. But an important factore also, was the entire absence of quarantine restrictions during the twelvemonth restrictions upon bona-fide free emigrants now drawing to a close. Nor has the tide of emigration to the South by any means reached the high water mark. By those the port of embarkment and of destinabest qualified to judge, it is estimated that within the next two or three years there will arising in which whole batches of coolies from be a demand from the South for a quarter the interior have been refused the right to of a million more labourers in addition to embark unless they went through the forthe numbers already on the mines and the mulae that apply to assisted emigrants. plantations in these tropical lands. As may Rather than submit to this treatment, these be easily imagined, this great enhancement in the coolie trade has thrown a lot of extra their country and to sacrifice the money work upon our Emigration Department, who | they had already spent in travelling down to have now as many as 200 to 300 emigrants passing through their hands every day. The Emigration Officer exercises his powers under the Chinese Emigration Ordinance No. 1 of and that is a divergence of the coolie traffic 1849 samended by Ordinance No. 4 of 1908. The object of this Ordinance is altogether outlets in South China for the shipments to admirable, for it aims at the prevention of these | the South. There can be no dubiety in any one's mind as to the meaning of this defini tion. It can only have reference, surely, to delivered in London on 7th inst. assistance got from coolic agents or labourrecruiters. The trouble is, that there is a large and ever-increasing class of emigrants who do not properly come within the scope of the spirit of the Ordinance, however much they may be amenable under the letter of the law. AN OPEX LETTER.

The following forter, from Luk Lan Ching the brigand chief, to the editors of the Cauton Press Society has been published in the vernacular papers of Canton :-

I have the horour to inform you that through the newspapers I recently learned of the opposition to the suppression of gambling in Cartob, on the part of some of the members of the Provincial Assembly, with the totalt that the people were much agitated. Now, the people in gen rul are of one mind and they are taking this oppo tunity to carnestly pray the Prince Regent'to totally suppress all kinds of gambling in Canton. This total suppression of gambling is within the code of constitutional reform. When we heard this we were glad and annoyed at the same time. We are glad that, if gambling is totally suppressed, there are other mains of replacing the revenu namely by levying taxes on spirit and salt. It is proposed that half of this revenue obtained from these two sources should be appropriated towards governmental reform, and also towards the establishment of manufactories for the unemployed to learn arts. If the proposal is carried out the people will be busily engaged. As regards ourse'ves, who are only brigands, the Quarry Bay dock. Defendant gave witwe will repent and surrender and will have places of shelter. The development of industry means enrichment of the people, and enriching the people means the strangthening of the people's resources. The interior will be at peace and foreign intrusion will be avoided. This is the best thing to do and nothing out give us more pleasure to hear. The reason why we are angry is this. 1. is now two years since the proposal for the suppression of gambling occupied the minds of the people, but no decision has been arrived at The high authorities may that they are u able to find sufficient mains to raplace the revenue obtained from gambling. They allowed the matter to hang fice for their banefit. Nothing in this world can compare with this unreasing ableness. I thick that the revenue derived from gambling is an improper one so far as the Government is concerned. To constitutional country will allow this, with the exception of Canton. I find that the evil of killing the psople and making the places poor have been brought on t'em fir tens of years put. We, being poor, are obliged to try our I ck by gambling and when we lost our miney, we have been driven to robbery. Wen we are caught, we are executed. The executioners are bid officlais and gambling swindlers, The Government are of wicked minds and distegard moral principles. If they do not trace the original source of brigan lage, it is impossible to suppress it. The increase of gambling means the increase of bigandage. More execution means the street haning the Government Civil Hespital on Tuesday to the officials concerned to commence conof the ranks of plunderers. The elure, it is clearly seen that Canton is gloomy and longy be compared to a day without a ray of sunlight. French Officer. On the 7th inst. he explained Yul Cheo has been appointed Managing Unexpectedly, the period of gan bling is coming to an end. Its suppression is promoted by the people and thould have been concurred in by the officials. If they insist on finding other means to replica the revenue, they are really compeling the pro; le tragitate operly. The efficials by levying tax on gambling are showing no diff rence fr.m plun 'ering, 1 They are hieves privately while we are thieves openly. They and we are the sama in the campaign of holding people for random. The laws biding people strongly recommend the sup; rassion of gambling. It is our duty to promote the suppression of brigan lage sors to help the people to lead a happy life. If the replacement of revenue as the result of gambling suppression is necessary the suppression of brigandage mes be replaced by some money also. The authorities, in effecting the suppression of gambling will require \$6 000,000, to replace what is obtained from gaming farms. I, as a brigand chief, in suppressing brigindage, also require \$3,000,000, to provide for my confederates. I sni orly asking 50% less times than the officials. This is not at all unreasonable. All sensible men will excuse this. If the officials was this claim, I will follow suit. As soon as the Imperial Effet is issued for the total suppression of gambling, we, robbers, one and all, will surronder ourselves. Besides we will offer 102,0:0 tacls for the manufactories employing the unemployed to learn the arts. When we have surrendered, we will e'ther enter the atmy or go into the factories to work. We will get the gentry of our respective clans to guarantee us to become good citizers. By this time the evil which has been playing havor in Canton for several hundreds of years will be swept away The people of Canton will show signs of renowed energy which means the rejuvenation of the whole nation. Is it not a good thing to do? If the officials are firm in their original view of the matter, we sympathise with them. If not, we are afraid that calamities will happen. I hope the Government will give this matter their serious consideration, Besides informing the Canton efficials, the gentry, the charitable institutions and other sccieties, I think it fit to give you s full account of my suggestions as I know that you, as representatives of public feelings and leaders of public opinion. I hope you wil publish my letter so that the Government may think of the whole situation and may put an

It is reported that during the last few days certain officials have despatched cables regarding H.E. Meng Chao hairing and H.E. Chao I ing-lin who were engaged in drawing up the memorial denouncing the members of the Grand Council, in order to obtain information of the contents of the memorial.

Sections of the community in Peking have approved of the Sena'e's action in impraching the Grand Councillors. The Centorial Body also beld a private congress, at which it was resolved that if no effect was given to the memorial, they would present a joint memorial to the Thro: c.

THE OLD AND THE NEW ORDER.

A Peking mossing states that since the Edict fixing the fifth year of Hauan Tung for the opening of Parliament was issued, here has been much dissension amongst the officials constituting the Government. Frince Ching and H. E. Na-tung, who are in favour of absolutism and antagonistic to the National Assembly, are constantly quarrelling with the progressive Princes Ya lang, Pa. Lun and Duke Tsal-tse, who are bent on reform, while H. E. Hau Shih-chang plays the role of conciliator. It is said Prince Ching's party has mes followers.

POPPY CULTIVATION TO BE PROH BITED. An Imperial mandate has been issued instructing the Governor of Hellungklang and the Governor of Shansi to prohibit the cultivation of the poppy.

ANOTHER BIG LOAN PROPOSED. The Ministry of Fixance and the Ministry of Posts and Communications have held a consultation, regarding a heavy foreign loan, to nationalize all the railways in China which have been constructed by merchants.

SALT TAX. With a view to preventing extortion on the part of the officials in charge of the talt administra'i n. Duke 7 s.i tre, Minister of Fl ance, has decided to collect the tax on the spot. The Duke states that if this course be adopted, an yearly increase of roloto 200, fails will accrue

to the country's rivenue, RAILWAY MATIERS. The Minister of Posts and Communications has memorial zed the Throne that in accor-

dance with Imperial instructions, experts have been appointed to survey the Kwongse Rail-P. O Wilson at ted that he was present at | way route and instructions have also been given

THE LATE MRS. TANG SHAO-YI. The functal of the late Mrs. Tang Shao-Yi the deceased wife of the Minister of Posts and Communications, took place on the 1st instant, when the remains were ramoved from H.E Tang's Trentsin residence to a sleamer

transportation to Canton. CHINESE IN THE COLONIES.

The Ministry of Foreign Affairs has decided to approach the B.i.i.b. Dutch and French Ministers in Peking with the request that the immigration laws against the Coinese going into cririslding in their respective Colonies be repealed, so that the Chinese may be placed on the same footing and enjoy the same privileges as the fortigne s. The Ministry has at the same time, proposed to issue orders to the Consuls at those contres to extend pro tection to the Chinese settled there and to hold them responsible for any id-treatment that might be meted out to them.

COMPULSIRY EDUCATION. . In view of the shortening of the period for the opening of Parliament, the Minister of Education has decided to enforce compulsors education without further delay. His Excellency proposes to make a start in Peking next Spring, when a kindergarten school wi be opened in every educational district Ohildren, both male and female, of four years of age, will be compelled to jo'n the ts:ablishment, where they will remain till they reach the age of reason, when they will be transferred to the elementary schools for boys or girls, as the case may be. Parents and guardians will be punished in case of failure to

send their charges to school, . CPIUM IMPORTATION. .

According to the report submitted by the Officials of the Ministry of Finance to Duke Tsal-110, 22,000 chests of oplum were im p ated into China during the first month of the 2nd year of Hsuan Tung, being 4,000 chests less than the previous half-year,

PRINCE, CHING .

It is reported that Prince Chi g has not attended to his duties during the last few days and from information received the Prince will most probably tender his resignation.

THE BUDGET. The Minister of Finance has decided to turn

all the petty and secret texes of the Imperial Marino Customs into ordinary du'les in order to compensate for the deficit in respect of the Budget next year.

ANOTHER CURIOUS RUMOUR. ed, a trial tun took place on 22nd ult. The Viceroy of the Yun-kwel, H. B. Li Lieut. Shiraic, director of the Supporting Ching-hal, has wired to the Grand Council that Astociation and several Tokio journalists were a certain foreign country has secretly removed. on board. The trial was quite satisfactory, the boundary posts of Yunnan to a point ten The auxiliary cogine gave in average speed of !!! away and that when he protested to the Con. alone. The verrel was taken as far as Ham da, latter denied any knowledge of it. His Ex-The vestel will be again docked for a final cellency asks that the Ministry of Foreign eve.h.ul, and then the will be thro, a open to | Affairs should be instructed to fight the matter the public. THE OPIUM TRADE.

The National Assembly has passed ungnimously a resolution in fix ur of the immediate application of the most stringest messeres for the super: salon of op'um smoking and roppy cultivation, and to this resolution has added a clause deprecating the renewal of the Agreement concerning the seduction of the import from India made with the Biltish Gey rament. It is not quite clear what is the object of declain y-to renew the Agreement with the Brit'sh Government.

There is no reason to believe that in any case the Government will withdraw from its policy of gradual reduction of the traffic and if by declining to rarew the Agreem nt, the provisions of which expire at the close of the current year, the National Assembly desires simply to leave the matter to the GOOD VAITH AND CONSCIENCE

of the British Government we have no doubt. that the policy already adopted by that Government will be continued. It is difficult to understand what object is sought in the proposed non-renewal of the Agreement. Its renewal would at any rate bind both sides. In the meantime everybody will rejoice that the National Assembly has set the seal of its approval on the auti-opium campuign, and has thereby shown its good sense.

It is to be regretted that equal good sense is not exhibited elsowhere. A body, consisting as far as it is possible to accertain of a single person, but calling i self the International Reform Bureau, which if we remember rightly was responsible for the distribution of

ANTI-DRITISH LITERATURE in Shanghal during the sitting of the Opium Commission, has been cauvassing the schools of Tientsin in order to obtain schoolboy, rignatures to a petition to the British people in favour of the immediate abolition of the Indian Opium Traffic.

The signatures to this petition, which by the way is written in the first person singular and in a strenge variety of the English language, have all been obtained in Tientsin and yet it purports to represent the "students of China." Even if it were what it purports to be we can not imagine that it would have the slightest influence on anybody. Obviously schoolboys are quite unfit to form opinions of any value

DIFFICULT QUESTION, and whilst there is not the slightest objection to bringing them up with a horror of opium and a reasoned belief in its baneful results there are many objections to making the schoo's of the country believe that their opinion on any topic is worth the paper on which it is weitten.

It is fullities of this sort that give nice to the unwarranted i teaference of schoolboys and infants in political affairs quite b yend their power to comprehend with unfortunate effects. -N. tional Review
